Welcoming Diversity in the Workplace
Sponsored by Office of Student Diversity Programs

Every human being has the capacity to discriminate and be discriminated against, and every individual's behavior impacts the workplace environment. This course helps to reduce prejudice in the workplace by assisting individuals: identify the information/misinformation we learned about other groups; identify and express pride in the group(s) to which we belong; learn how groups, other than our own, experience mistreatment; learn the personal impact of specific incidents of discrimination; and learn how to interrupt prejudicial jokes, remarks, and slurs.
