Question, Persuade, Refer (QPR) Suicide Prevention Gatekeeper Training

Most individuals want to help save lives, but avoid talking about suicide because they are unsure of how to identify someone at risk or they are concerned about saying the wrong things or making a situation worse. Saving lives begins with learning what to do.

QPR stands for Question, Persuade, and Refer - the 3 simple steps anyone can learn to help prevent suicide. The most widely taught gatekeeper training in the world, QPR is designed to help any and every one learn how to recognize the warning signs of suicide, offer hope, and help save lives. Participants will learn how to intervene with an individual at-risk, persuade them to get help, and guide them to the appropriate resources.

The 2-hour QPR Training at Georgia Tech includes an hour of didactic instruction, followed by role play exercises, and time for questions and discussion. Take the first step in saving lives by signing up for a QPR training today.

Surprised by God: Atheist Conversions to Christianity
Sponsored by Why Should I Believe

Dr. Jana Harmon recently finished her Ph.D. at the University of Birmingham, England in which she investigated atheist conversions to Christianity. Specifically, she surveyed and interviewed 52 former atheists to understand what formed their belief as atheists, what allowed them to turn in a different
direction, and the ways God drew them towards conversion. Considering the academy reduces religious conversion to mere socio-psychological motivations, she wanted to see if and what role intellectual belief and spiritual experience played in the process. She will be interweaving conversion stories into her findings. Q&A to follow!
